

# Charting a Direction for Battle Ground's Future

## Overview

The City of Battle Ground has initiated a **community vision and strategic planning process** – called **Battle Ground Roadmap** – designed to chart a direction for the City's future.

The goal of the project is to develop a shared vision for **Battle Ground's future**, based on core community values, then build an action plan – *a Roadmap* – to achieve that vision. The results will guide City policy and align resources accordingly.

The project began with comprehensive analysis of the area's demographic and economic trends, and with thirty-six community stakeholder interviews. Later, **more than 2,000 area residents responded to a direction-setting survey**. A draft community vision and a set of "Big Ideas" were developed from this community feedback. Now, they are being share with the public for additional input. The final vision and action plan is anticipated to be finalized by the end of 2018.

*Community members identified five focus areas for Battle Ground Roadmap visioning.*

## Navigators

**12 people serve as the project's steering committee – the Navigators.** These dedicated volunteers, representing a broad cross-section of the community, lead the vision and planning process.

Max Ault	Ryan Kurtz
Mike Brown	Stacy Kysar
Josie Calderon	Ryan Moor
Elizabeth Cerveney	Rick Sawczuk
Tim Gaughan	Tim Schauer
Denise Hays	Kevin Tapani

*Navigators and others who are working on the Battle Ground Roadmap*
